

2018 ICORE International Postal Match

Welcome to the 2018 ICORE Postal Match! The International Postal Match is here to promote revolver shooting, ICORE, and friendly competition across the world.

The hosting club does not need to be affiliated with ICORE, nor is ICORE membership mandatory. Results will be submitted on an honor system. We ask that all participants respect this and set up the match accurately according to the stage instructions, follow ICORE rules (posted on www.icore.org), and submit the proper scores.

You may shoot the postal match in one or more of the ICORE divisions: Open, Limited, Limited 6, Classic, and Rim Fire. You may shoot any division more than once, just not on the same day.

NOTE! To report results, use the official match Excel spreadsheet (also posted on the ICORE website under the Events tab, 2018 schedule). Altering the spreadsheet causes unnecessary work for the Postal Match Director and increases the probability of errors, so please use it as is. (Results in an altered format may be returned for correction before they are accepted.)

Enter info into the spreadsheet by typing as follows:

NAME

Enter First and Last name with upper and lower case letters.

Example: Matthew Dillon

CATEGORY

Enter the appropriate abbreviation(s) for one or more special categories.

J for Junior

L for Lady

S for Senior

SS for Super Senior

DIVISION

Enter the appropriate abbreviation for the Division.

C for Classic

L for Limited

L6 for Limited 6

O for Open

RF for Rim Fire

DATE

Enter the date however you want. The date will appear in a format that was preset.

SUBMITTING & MATCH DEADLINE

All results and questions should be submitted to me at icorepostal2018@gmail.com. Please submit the scores using the spreadsheet in the proper format.

I will confirm receipt of scores within 7 days. If you do not hear back from me, please send a follow up email.

The deadline for submitting match results is December 31, 2018.

NOTE: For ranges that can only set up 2 stages at a time (example: indoor ranges) If you set up stages 1 and 2 first and then stages 3 and 4, you can reuse most all of the targets and boxes. Stages 2 and 3 share the same spots for ports and boxes. If any questions, please contact me.

Thank you, and enjoy the match!
